

■ Some of the young trout being stocked to revive the River Thames

# Fresh hope after £20.3m pollution

■ River revival kick started ■ 120,000 fish ■ Water firm money

**T**HE RIVER THAMES has been making a comeback for those who enjoy fishing and those who enjoy the river's wildlife.

The Thames is now a river of life, with a new lease of life in the water.

As the Thames is now a river of life, with a new lease of life in the water, the river is now a river of life.

■ A young trout, one of the 120,000 fish being stocked to revive the River Thames

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

■ Some of the young trout being stocked to revive the River Thames

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.

The river is now a river of life, with a new lease of life in the water.
